RED IMPORTED FIRE ANT QUARANTINE

The State of California has established a quarantine against the Red Imported Fire Ant (RIFA) in all of Orange County. As a result, restrictions have been placed on the movement of soil, including grading projects and swimming pool excavations. Such activities must be certified by RIFA Project Regulatory personnel. In cooperation with the State of California Department of Food and Agriculture, the City of Irvine will require RIFA certification prior to issuance of a grading or swimming pool permit, or any other permit involving the movement of soil.

Certification for movement of soil from or within the quarantined area may be made by contacting the RIFA Project and scheduling an inspection. Inspections are free and may consist of a visual survey or by trapping the area and determining if RIFA are present. If no RIFA are found at the site or origination, movement is permitted and a certification will be provided stating that the site was found negative for RIFA. If RIFA are found, movement will be prohibited until a pesticide treatment plan is established as required by Project personnel. Inspections may be scheduled (at least 3 days in advance) by returning the completed RIFA Form CA-1 (attached), via facsimile, to the Cooperative Red Imported Fire Ant Project. It will be the responsibility of the applicant to provide the City of Irvine with the completed RIFA Certification prior to issuance of the associated permit.

TO ALL CONCERNED WITH SOIL MOVEMENT IN ORANGE COUNTY AND THE QUARANTINED AREAS OF RIVERSIDE AND LOS ANGELES COUNTIES:

There are quarantines established against the red imported fire ant (RIFA) in all of Orange County and parts of Los Angeles and Riverside Counties (California Code of Regulations 3432 and Code of Federal Regulation 301.81). Articles and commodities regulated include soil; baled hay and baled straw stored in direct contact with ground; plants and sod with roots and soil attached; used soil moving equipment, unless free of all non-compacted soil and any other product, article, or means of conveyance when it is determined by the department or county agricultural commissioner to present hazard of spreading live red imported fire ant and the person in possession has been so notified. It is unlawful to move within or from the quarantine area a commercial shipment of any commodity mentioned, except when certified by the department or county agricultural commissioner in accordance with the regulations.

RIFA Project would certify movement of soil from or within the quarantine area. The inspections are free. Please contact at least 3 days in advance to schedule an inspection, by sending a fax of this document and attached RIFA Form CA-1 (Notification of Intent to Move Soil). Inspection consists of determining if RIFA are present by visual survey or by trapping the area using protein baits (canned lunch meat). Certification for movement of soil within the quarantined area will be based on the severity of RIFA in the general area where the soil is being excavated in conjunction with where the soil is to be moved. RIFA Form CA-1 (attached) may be faxed to RIFA Project office with the appropriate information each time you have soil-moving project. If no RIFA are found at the site of origination, movement is permitted and a certification will be provided stating that the site found negative for RIFA. If RIFA are found at the origination site, movement is prohibited until a pesticide treatment plan is established as required by Project personnel.

The certification requirement for movement of soil would apply to persons dealing in soil movement such as grading, digging, landscaping, and other building projects. If you are unsure as to whether or not your project is subject to these requirements, please fax a copy of RIFA Form CA-1 to (562) 795-1117. We will respond within 3 to 4 business days (Mon-Thu).

Thank you for your cooperation and help in this matter.

I have read and understand this document:

RIFA Compliance Agreement No*:

_____ (print name)

_____ (signature)

Company: _____

Phone #: _____

Address: _____

Date: _____

Job Site Address: _____

It is the responsibility of each person involved in the movement of soil to report sightings of ants.
 *We will assign you an identification number (RIFA Compliance Agreement Number) when you fax or mail in your request for an inspection.
