SIGNING WITH YOUR BABY

Take the guess-work and frustration out of your communication with your baby. With this class, designed to support early language development through the use of American Sign Language, you can know what your baby wants, even before your baby can speak. Research shows that babies who learn sign language tend to speak sooner with larger vocabularies and show increased IQ scores. More info: www.abcmesign.com. Location: Neighborhood Community Center, 1845 Park Ave., Costa Mesa. Inst: Barbara Granoff, MSW. Registration fee is per person.
