Bob Stuber's Nationally Known Safe Escape Program
(Smart ways to help keep kids safe from abduction!)

This VERY IMPORTANT presentation will help educate families in a non-threatening, entertaining environment, on common lures used by abductors. It will empower children to make "Smart Choices instead of Scared Reactions" by using practical, common sense prevention - evasion skills. The "Velcro", "Bicycle", and "Windmill" techniques (among others) are all safety skills that can help children recognize and/or escape from potential danger.
