Firearms

314.1 PURPOSE AND SCOPE
This policy provides guidelines for issuing firearms, the safe and legal carrying of firearms, firearms maintenance and firearms training.

This policy does not apply to issues related to the use of firearms that are addressed in the Use of Force or Officer-Involved Shootings and Deaths policies.

This policy only applies to those members who are authorized to carry firearms.

314.2 POLICY
The Irvine Police Department will equip its members with firearms to address the risks posed to the public and department members by violent and sometimes well-armed persons. The Department will ensure firearms are appropriate and in good working order and that relevant training is provided as resources allow.

314.3 AUTHORIZED FIREARMS, AMMUNITION AND OTHER WEAPONS
Members shall only use firearms that are issued or approved by the Department and have been thoroughly inspected by the armorer. Except in an emergency or as directed by a supervisor, no firearm shall be carried by a member who has not qualified with that firearm at an authorized department range.

All other weapons not provided by the Department, including but not limited to edged weapons, chemical or electronic weapons, impact weapons or any weapon prohibited or restricted by law or that is not covered elsewhere by department policy, may not be carried by members in the performance of their official duties without the written authorization of the member’s Division Commander. This exclusion does not apply to the carrying of a single folding pocketknife that is not otherwise prohibited by law.
Members may deploy the patrol rifle in any circumstance where the member can articulate a reasonable expectation that the rifle may be needed. Examples of some general guidelines for deploying the patrol rifle may include but are not limited to:

(a) Situations where the member reasonably anticipates an armed encounter.
(b) When a member is faced with a situation that may require accurate and effective fire at long range.
(c) Situations where a member reasonably expects the need to meet or exceed a suspect's firepower.
(d) When a member reasonably believes that there may be a need to fire on a barricaded person or a person with a hostage.
(e) When a member reasonably believes that a suspect may be wearing body armor.
(f) When authorized or requested by a supervisor.
(g) When needed to euthanize an animal.

When not deployed, the patrol rifle shall be properly secured consistent with department training in a locking weapons rack in the patrol vehicle.

314.3.4 PATROL RIFLE - READY CONDITION
Any qualified officer carrying a patrol rifle in the field shall maintain the weapon in a "patrol ready" condition until deployed. A rifle is considered "patrol ready" when it has been inspected by the officer having primary responsibility, and meets the following conditions:

(a) The chamber is empty.
(b) The rifle bolt is forward (with the hammer down).
(c) The rifle safety lever is in the "safe" position.
(d) There is a fully loaded magazine in the rifle with no more than 18 rounds in a 20 round magazine or 28 rounds in a 30 round magazine.
(e) The dust cover is closed.
(f) The rifle is secured in the locked patrol vehicle's rifle rack or trunk.
(g) When carried by a SWAT team or special event supervisor, the rifle will be secured in a case commercially available for that purpose.

314.3.5 PERSONALLY OWNED DUTY FIREARMS
Personally owned duty firearms are subject to the following restrictions:

(a) The firearm shall be in good working order and on the department list of approved firearms.
(b) The firearm shall be inspected by the Rangemaster or armorer prior to being carried and thereafter shall be subject to inspection whenever it is deemed necessary.
(c) Prior to carrying the firearm, members shall qualify under range supervision and thereafter shall qualify in accordance with the department qualification schedule.
Firearms

Members must demonstrate proficiency and safe handling, and that the firearm functions properly.

(d) Members shall provide written notice of the make, model, color, serial number and caliber of the firearm to the armorer, who will maintain a list of the information.

314.3.7 AUTHORIZED OFF-DUTY FIREARMS

The carrying of firearms by members while off-duty is permitted by the Chief of Police but may be rescinded should circumstances dictate (e.g., administrative leave). Members who choose to carry a firearm while off-duty, based on their authority as peace officers, will be required to meet the following guidelines:

(a) The member may use his/her duty firearm or may use a personally owned firearm that is carried and inspected in accordance with the Personally Owned Duty Firearms requirements in this policy. A member carrying his/her duty firearm will be deemed to have complied with (c), (d) and (e) of this section.
Firearms

(a) The purchase of the personally owned firearm and ammunition shall be the responsibility of the member.

(b) Only firearms manufactured by Berretta, Browning, Colt, CZ USA, Dan Wesson, Ed Brown, FN, Glock, Kimber, Les Baer, Nighthawk, Para Ordinance, Sig Sauer, Smith & Wesson, STI, Walther, Wilson Combat, Ruger, Springfield Armory or Heckler & Koch are authorized.

(c) The caliber of the firearm must be .357, .380, .38, 9mm, 10mm, .40 or .45.

(b) The firearm shall be carried concealed at all times and in such a manner as to prevent accidental unintentional displaying, cocking, discharge or loss of physical control.

(c) It will be the responsibility of the member to submit the firearm to the Rangemaster for inspection prior to being personally carried. Thereafter the firearm shall be subject to periodic inspection by the armorer.

(d) Prior to carrying any off-duty firearm, the member shall demonstrate to the Rangemaster that he/she is proficient in handling and firing the firearm and that it will be carried in a safe manner.

(e) The member will successfully qualify with the firearm prior to it being carried.

(f) Members shall provide written notice of the make, model, color, serial number and caliber of the firearm to the Rangemaster, who will maintain a list of the information.

(g) Members shall only carry department-authorized ammunition.

(h) When armed, officers shall carry their Irvine Police Department identification card indicating CCW/HR 218 approved.

(i) Sworn employees authorized to carry an off-duty firearm may own more than one firearm for this purpose. The employee must meet all of the requirements, above, for each firearm.

314.3.8 AMMUNITION
Members shall carry only department-authorized ammunition. Members shall be issued fresh duty ammunition in the specified quantity for all department-issued firearms annually during the member’s firearms qualification. Replacements for unserviceable or depleted ammunition issued by the Department shall be dispensed by the armorer when needed, in accordance with established policy.

Members carrying personally owned authorized firearms of a caliber differing from department-issued firearms shall be responsible for obtaining fresh department authorized duty ammunition in accordance with the above, at their own expense.
(b) When officer(s) assigned to modified duty have been directed not to carry a firearm on-duty.

The firearm to be carried in anticipated "high risk" situations shall be the authorized duty firearm. For the purposes of this section, anticipated "high risk" situations would include service of arrest and/or search warrants, response to in-progress crimes and follow up investigations on violent crimes.

In other situations where the wearing of the authorized duty firearm would be inappropriate, non-uniformed sworn personnel may use an optional duty firearm that meets the requirements of authorized secondary handgun section, above. The firearm must have a capacity of at least five (5) rounds and, unless assigned to administrative duty, the officer shall carry sufficient ammunition for at least one reload of the firearm. The optional duty firearm shall be maintained in operational condition and shall have all safety devices intact and operational to factory specifications. The firearm shall be carried in a holster, which has been specifically designed for that weapon.

The carrying of a firearm may be optional for personnel assigned to specialized duties such as undercover intelligence, narcotics and vice operations, or administrative assignments upon the specific approval of the employee’s immediate supervisor. Officers choosing to carry an optional duty firearm shall demonstrate proficiency with both the optional duty firearm and authorized duty firearm as outlined in the Firearms Qualifications policy.

314.3.10   DEPLOYMENT OF SPECIALIZED FIREARMS

Specialized weapons (e.g. sniper rifles) shall only be operated by personnel who have demonstrated proficiency with that particular weapon pursuant to the qualification standards established by the department, absent exigent circumstances. The specialized weapons shall be deployed only in situations where standard issue weapons such as side arms and shotguns may be ineffective. Such situations could include, but not be limited to:

(a) Armed barricaded suspect(s)
(b) "High Risk" car stops with armed suspects
(c) Sniping incidents
(d) Riot responses
(e) "High Risk" warrant services
(f) Active shooter situations
(g) Robbery responses
(h) SWAT call outs

SWAT officers may also carry in the field other SWAT equipment as authorized by the SWAT Commander, such as body armor, chemical agents and distraction devices. SWAT officers will attempt, if practical, to notify the on-duty field supervisor of deployment of these specialized items prior to their use.
314.4 EQUIPMENT
Firearms carried on or off duty shall be maintained in a clean, serviceable condition. Maintenance and repair of authorized personally owned firearms are the responsibility of the individual member.

314.4.1 REPAIRS OR MODIFICATIONS
Each member shall be responsible for promptly reporting any damage or malfunction of an assigned firearm to a supervisor or Rangemaster, or the armorer.

Firearms that are the property of the Department or personally owned firearms that are approved for department use may be repaired or modified only by a person who is department-approved and certified as an armorer or gunsmith in the repair of the specific firearm. Such modification or repair must be authorized in advance by a Rangemaster or armorer.

Any repairs or modifications to the member’s personally owned firearm shall be done at his/her expense and must be approved by the armorer.

314.4.2 HOLSTERS
Only department-approved holsters shall be used and worn by members. Members shall periodically inspect their holsters to make sure they are serviceable and provide the proper security and retention of the handgun.

314.4.3 TACTICAL LIGHTS
Tactical lights may only be installed on a firearm carried on- or off-duty after they have been examined and approved by the Rangemaster or armorer. Once the approved tactical lights have been properly installed on any firearm, the member shall qualify with the firearm to ensure proper functionality and sighting of the firearm prior to carrying it.

314.5 SAFE HANDLING, INSPECTION AND STORAGE
Members shall maintain the highest level of safety when handling firearms and shall consider the following:

(a) Members shall not unnecessarily display or handle any firearm.

(b) Members shall be governed by all rules and regulations pertaining to the use of the range and shall obey all orders issued by the Rangemaster. Members shall not dry fire or practice quick draws except as instructed by the Rangemaster or other firearms training staff.

(c) Members shall not repair, load or unload a firearm anywhere in the Department. Members shall not pull the trigger on a firearm during cleaning or inspection.

(d) Shotguns or rifles removed from vehicles or the equipment storage room shall be loaded and unloaded in the parking lot and outside of the vehicle. Members shall not pull the trigger on shotguns, rifles, or 40mm launcher during cleaning or inspection.

(e) Members shall not place or store any firearm or other weapon on department premises except where the place of storage is locked. No one shall carry firearms into the jail section or any part thereof when securing or processing an arrestee, but shall place all firearms in a secured location. Members providing access to the jail section to persons...
Firearms

from outside agencies are responsible for ensuring firearms are not brought into the jail section.

(f) Members shall not use any automatic firearm, heavy caliber rifle, gas or other type of chemical weapon or firearm from the armory, except with approval of a supervisor.

(g) Any firearm authorized by the Department to be carried on or off duty that is determined by a member to be malfunctioning or in need of service or repair shall not be carried. It shall be promptly presented to the Department or a armorer approved by the Department for inspection and repair. Any firearm deemed in need of repair or service by the armorer will be immediately removed from service. If the firearm is the member’s primary duty firearm, a replacement firearm will be issued to the member until the duty firearm is serviceable.

314.5.1 INSPECTION AND STORAGE
Handguns shall be inspected regularly and upon access or possession by another person. Shotguns and rifles shall be inspected at the beginning of the shift by the member to whom the weapon is issued. The member shall ensure that the weapon is carried in the proper condition and loaded with approved ammunition and no round in the chamber. Inspection of the shotgun and rifle shall be done while standing outside of the patrol vehicle. All firearms shall be pointed in a safe direction or into clearing barrels, and the trigger shall never be pulled during inspection. Inspection of the trigger function will be inspected by the Armorer.

Personally owned firearms may be safely stored in lockers at the end of the shift. Department-owned firearms shall be stored in the appropriate equipment storage room. Handguns may remain loaded if they are secured in an appropriate holster. Shotguns and rifles shall be unloaded in a safe manner outside the building and then stored in the appropriate equipment storage room.
314.5.4 ALCOHOL AND DRUGS
Firearms shall not be carried by any member, either on or off duty, who has consumed an amount of an alcoholic beverage, taken any drugs or medication, or has taken any combination thereof that would tend to adversely affect the member’s senses or judgment.

314.6 FIREARMS TRAINING AND QUALIFICATIONS
All members at the rank of sergeant and below who carry a firearm while on-duty are required to successfully qualify bi-monthly with their duty firearms. In addition to bi-monthly training, all members will qualify at least annually with their duty firearms. Members will qualify with off-duty and secondary firearms annually. Training and qualifications must be on an approved range course. See Policy Manual: 315.4 QUALIFICATION REQUIREMENTS.

At least annually, all members carrying a firearm should receive practical training designed to simulate field situations including low-light shooting.

314.6.1 NON-CERTIFICATION OR NON-QUALIFICATION
If any member fails to meet minimum standards for firearms training or qualification for any reason, including injury, illness, duty status or scheduling conflict, that member shall notify his/her immediate supervisor prior to the end of the required training or qualification period. See Policy Manual: 315.2 DISCIPLINARY/REMEDIAL ACTION.

Those who fail to meet minimum standards or qualify on their first shooting attempt shall be provided remedial training and will be subject to the following requirements:

(a) Additional range assignments may be scheduled to assist the member in demonstrating consistent firearm proficiency.

(b) Members shall be given credit for a range training or qualification when obtaining a qualifying score or meeting standards after remedial training.

Members who repeatedly fail to meet minimum standards will be removed from field assignment and may be subject to disciplinary action.

314.6.2 PATROL RIFLE TRAINING
Officers shall not carry or use the patrol rifle unless they have successfully completed an initial rifle user’s course approved by POST, and achieved a qualification score with a certified patrol rifle instructor. Officers shall thereafter be required to successfully complete annual training and qualification conducted by a certified patrol rifle instructor. Any officer who fails to qualify or who fails to successfully complete two or more department-sanctioned training/qualification sessions within a calendar year will no longer be authorized to carry the patrol rifle without successfully retaking the initial patrol officer’s user’s course and qualification.
314.7 FIREARM DISCHARGE
Except during training or recreational use, any member who discharges a firearm intentionally or unintentionally, on or off duty, shall make a verbal report to his/her supervisor as soon as circumstances permit. If the discharge results in injury or death to another person, additional statements and reports shall be made in accordance with the Officer-Involved Shootings and Deaths Policy. If a firearm was discharged as a use of force, the involved member shall adhere to the additional reporting requirements set forth in the Use of Force Policy.

In all other cases, written reports shall be made as follows:

(a) If on-duty at the time of the incident, the member shall file a written report with his/her Division Commander or provide a recorded statement to investigators prior to the end of shift, unless otherwise directed.

(b) If off-duty at the time of the incident, the member shall file a written report or provide a recorded statement no later than the end of the next regularly scheduled shift, unless otherwise directed by a supervisor.

314.7.1 DESTRUCTION OF ANIMALS
Members are authorized to use firearms to stop an animal in circumstances where the animal reasonably appears to pose an imminent threat to human safety and alternative methods are not reasonably available or would likely be ineffective.

In circumstances where there is sufficient advance notice that a potentially dangerous animal may be encountered, department members should develop reasonable contingency plans for dealing with the animal (e.g., fire extinguisher, TASER® device, oleoresin capsicum (OC) spray, animal control officer). Nothing in this policy shall prohibit any member from shooting a dangerous animal if circumstances reasonably dictate that a contingency plan has failed or becomes impractical.

314.7.2 INJURED ANIMALS
With the approval of a supervisor, a member may euthanize an animal that is so badly injured that human compassion requires its removal from further suffering and where other dispositions are impractical.

Stray or abandoned injured animals that may be moved or taken to an available veterinarian should not be euthanized. With supervisor approval, abandoned injured animals (with the exception of dogs and cats) may only be euthanized after a reasonable search to locate the owner has been made. Injured dogs and cats found without their owners shall be taken to an appropriate veterinarian for determination of whether they should be treated or humanely destroyed (Penal Code § 597.1).
314.8 ARMORER AND RANGEMASTER DUTIES
The range will be under the exclusive control of the Rangemaster. All members attending will follow the directions of the Rangemaster. The Rangemaster will maintain a roster of all members attending the range and will submit the roster to the Training Manager at his/her request after each range date. Failure of any member to sign in and out with the Rangemaster may result in non-qualification.

The range shall remain operational and accessible to department members during hours established by the Department.

The armorer has the responsibility of making periodic inspection, at least once a year, of all duty firearms carried by members of this department to verify proper operation. The Rangemaster and armorer have the authority to deem any department-issued or personally owned firearm unfit for service. The member will be responsible for all repairs to his/her personally owned firearm and it will not be returned to service until inspected by the Rangemaster or armorer.

The Rangemaster has the responsibility for ensuring each member meets the minimum requirements during training shoots and, on at least a yearly basis, can demonstrate proficiency in the care, cleaning and safety of all firearms the member is authorized to carry.

The Rangemaster shall complete and submit to the Training Manager documentation of the training courses provided. Documentation shall include the qualifications of each instructor who provides the training, a description of the training provided and, on a form that has been approved by the Department, a list of each member who completes the training. The Rangemaster and/or armorer should keep accurate records of all training shoots, qualifications, repairs, maintenance or other records as directed by the Training Manager.

Upon receipt of an incoming shipment of firearms or weapons, the Armorer shall:
Firearms

(a) Verify the identifying information, including the serial number, of each item with the information on the shipment packing slip.
(b) Enter the complete incoming inventory into the weapons database.
(c) Department purchased firearms will be registered on the Automated Firearms Systems (AFS) through Incident Reports. Each weapon should receive its own report and DR #.
(d) Copy all inventory lists, packing slips and any other document related to the shipment and file as instructed.

Opened shipments with shipping documents removed shall not be picked up by the armorer, until the armorer's supervisor is notified.

Likewise, the armorer's responsibilities include the purchase and transportation of weapons and ammunition to and/or from the Irvine Police Department. Therefore, the armorer will be issued the current IPD standard Smith and Wesson M&P 9mm firearm following the successful completion of a 24-hour, 832 California Penal Code firearm familiarizations training course.

The armorer will be required to carry their Department-issued firearm, securely concealed on their person while transporting weapons and ammunition to and/or from Irvine Police Department. The armorer will be required to successfully complete bi-monthly range qualification per Department Policy (section 306.6). While armed, the armorer will be required to wear body armor, issued by the Department.

It is also the armorer's responsibility to obtain and maintain a CCW permit through the Orange County Sheriff's Department although the practice of carrying a firearm is not governed by this permit by the Chief of Police.

Further, in order to give the armorer another force option for self-protection in the event he is attacked while transporting weapons and/or ammunition, the armorer shall complete an introductory course on the use and application of OC spray. He/She shall be given annual training on the use and application of OC Spray (policy 303.3, 303.7 and 303.10). The armorer would be required to have OC Spray readily available to him/her and would be governed by existing policies.

The use of the firearm and/or the OC Spray is for self-protection only, and should not be deployed unless he/she is personally in danger. If any transported inventory is stolen, he/she should immediately file a police report with the governing agency and notify the Watch Commander.

Carrying a firearm and OC Spray by the armorer is at the sole discretion of the Chief of Police and may be revoked at any time. Further, if the armorer is on modified duty, he/she may not carry a firearm or OC Spray.

314.9   FLYING WHILE ARMED

The Transportation Security Administration (TSA) has imposed rules governing law enforcement officers flying armed on commercial aircraft. The following requirements apply to officers who intend to be armed while flying on a commercial air carrier or flights where screening is conducted (49 CFR 1544.219):
Firearms

(a) Officers wishing to fly while armed must be flying in an official capacity, not for vacation or pleasure, and must have a need to have the firearm accessible, as determined by the Department based on the law and published TSA rules.

(b) Officers must carry their Irvine Police Department identification card, bearing the officer's name, a full-face photograph, identification number, the officer's signature and the signature of the Chief of Police or the official seal of the Department and must present this identification to airline officials when requested. The officer shall also carry their badge and should also carry the standard photo identification needed for passenger screening by airline and TSA officials (e.g., driver license, passport).

(c) The Irvine Police Department must submit a National Law Enforcement Telecommunications System (NLETS) message prior to the officer's travel. If approved, TSA will send the Irvine Police Department an NLETS message containing a unique alphanumeric identifier. The officer must present the message on the day of travel to airport personnel as authorization to travel while armed.

(d) An official letter signed by the Chief of Police authorizing armed travel may also accompany the officer. The letter should outline the officer's need to fly armed, detail his/her itinerary, and include that the officer has completed the mandatory TSA training for a law enforcement officer flying while armed.

(e) Officers must have completed the mandated TSA security training covering officers flying while armed. The training shall be given by the department-appointed instructor.

(f) It is the officer's responsibility to notify the air carrier in advance of the intended armed travel. This notification should be accomplished by early check-in at the carrier's check-in counter.

(g) Any officer flying while armed should discreetly contact the flight crew prior to take-off and notify them of his/her assigned seat.

(h) Discretion must be used to avoid alarming passengers or crew by displaying a firearm. The officer must keep the firearm concealed on his/her person at all times. Firearms are not permitted in carry-on luggage and may not be stored in an overhead compartment.

(i) Officers should try to resolve any problems associated with flying armed through the flight captain, ground security manager, TSA representative or other management representative of the air carrier.

(j) Officers shall not consume alcoholic beverages while aboard an aircraft, or within eight hours prior to boarding an aircraft.

314.10   CARRYING FIREARMS OUT OF STATE

Qualified, active, full-time officers of this department are authorized to carry a concealed firearm in all other states subject to the following conditions (18 USC § 926B):

(a) The officer shall carry his/her Irvine Police Department identification card whenever carrying such firearm.

(b) The officer is not the subject of any current disciplinary action.
The officer may not be under the influence of alcohol or any other intoxicating or hallucinatory drug.

The officer will remain subject to this and all other department policies (including qualifying and training).

Officers are cautioned that individual states may enact local regulations that permit private persons or entities to prohibit or restrict the possession of concealed firearms on their property, or that prohibit or restrict the possession of firearms on any state or local government property, installation, building, base or park. Federal authority may not shield an officer from arrest and prosecution in such locally restricted areas.

Active law enforcement officers from other states are subject to all requirements set forth in 18 USC § 926B.
